

Event: Tomorrow's Maritime Professionals - what does the future look like?

Exponential advances in digital technologies, hyper-connected societies, and the rise of the global citizen are driving change across the operational landscape of the maritime industry.

Tuesday, 12 September 2017 from 08:30 to 11:00 (GMT)

The London Stock Exchange
10 Paternoster Square
EC4M 7LS London

Disruptive technology, human capital and evolving demands such as regulation, security, and sustainability, are challenging professionals with significant industry experience to respond with intelligent business strategies. Simultaneously, social commentary indicates that Millennials and Gen Z, those born after the widespread adoption of digital technology, are most familiar with the tools shaping the future of our industry.

How can we harness the knowledge held within each, and create a dynamic that ignites excitement in the industry?

Join the conversation as we host a panel discussion bringing together three industry newcomers and three industry experts looking to share, inform, and debate the trends shaping the maritime industry, in a 'reverse mentoring' style.

[Held in conjunction with LISW17](#)
